Only problem I've encountered is finding meds in the index, e.g. Zofran is not in the index and you must find it in the gastrointestinal section. Similar problem with several other meds. Not a reason to not have this in your iodine/blood stained lab coat pocket.0 of 0 people found the following review helpful. Love!By RTmamal use this at work all the time. It is my go to resource for pediatric transport. Great information to have at hand for emergencies!!1 of 1 people found the following review helpful.
