**Chad Foster : Teenagers Preparing for the Real World: A Formula for Success** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Teenagers Preparing for the Real World: A Formula for Success:

0 of 0 people found the following review helpful. I just read the reviews...By Anthony JonesI bought this book for my son and surprisingly he said " it's a really good book and recommend I buy one for his sister.I haven't read the book, but the reviews and found them compelling.6 of 6 people found the following review helpful. Don't Let the Title Fool You!By Mark QuintanaI am a public high school teacher who has used this book in my classes. Yet, do not let the title of this book fool you. This is a book that gives advice on how to make yourself successful in the real world no matter what your age. I have incorporated the strategies from this book into my own life and career. It really can be used by everyone, for teenagers to discuss success in the future and adults to discuss what to do to make themselves successful right now. I have students who hate to return the book and have asked me how to get one to keep forever. I have ordered the book for my own brother, a college senior to help in his budding career. This book had more an effect on how I act in my career than any other!6 of 6 people found the following review helpful. Teenagers Preparing for the Real WorldBy A CustomerThis book is a MUST READ for all teenagers. The book is very easy reading and full of interesting stories about famous people. It has changed my sons life. It has given him direction to pursue what he would really like to do. I'm so glad someone has finally realized that teenagers need more than just education to make in the real world. Way to go, Chad!
