Paul A. Bott : Testing and Assessment in Occupational and Technical Education before purchasing it in order to gage whether or not it would be worth my time, and all praised Testing and Assessment in Occupational and Technical Education:

0 of 0 people found the following review helpful. Five StarsBy jackieI wish I would have ordered long ago would have save me alot of money0 of 0 people found the following review helpful. This is a great book for CTEBy Toeupu LiuDelivery was on time. This is a great book for CTE.0 of 0 people found the following review helpful. Waste of

moneyBy Linda S. HagedornI am VERY disappointed with this book. Further, the title doesn't correlate with the material covered in the book. Don't waste your money.

This well-organized, easy-to-read book fills a gaping hole in occupational teacher preparation, and will be particularly useful as a reference for first-year teachers. No other books are written with the introductory instructor in mind.
