1 of 1 people found the following review helpful. Good, but confusedBy B. HanksFor those who are stuck between jobs, or who are contemplating a change, this book makes a fine companion to "Ask the Headhunter" by Nick Corcodilos.The title says it all: if you're looking for a job and you line up with the herd, you will lose. Become a salesman (of yourself) and win.I used some of the techniques in this book to land my last job and I can attest to how well they work. The book is also very easy to read, as all of the concepts are chopped up into small bite-sized chunks, the writing is natural, and the subject matter is not difficult.Unfortunately about half-way through, Rosaluk forgets his topic and starts writing about these useless tips on how to reformat your resume, how to make it better, etc. (That's why he only gets 3 stars)Keep reading the title; that is the key. It works.
