Thucydides : Thucydides: The Peloponnesian War Book II (Cambridge Greek and Latin Classics) (Greek Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Thucydides: The Peloponnesian War Book II (Cambridge Greek and Latin Classics) (Greek Edition):

3 of 4 people found the following review helpful. J Rusten's "Histories" 2 By DJM Tremblay Professor Rusten nearly equals Clyde Pharr in his presentation of Book II. The only advantage which Rusten does not provide is a vocabulary

list. Commentary is helpful, if in the form of end notes, and fairly thorough. He presents a useful text for students of Attic Greek and to instructors of Thucydides. Either as an advanced [very] undergraduate Greek course or as part of an introductory graduate one, Rusten's edition is a valuable adjunct to the Loeb or the OCT in conjunction with the Crawley translation or the Landmark volume. 1 of 2 people found the following review helpful. gift to mankind
By Rosaria V Munson
This customer review is long overdue, since my students and I have been using this book since it first came out. I call it a gift to mankind. The introduction is a jewel and the grammatical help it gives on some of the most difficult Greek we have is invaluable. I cannot wait until Rusten's commentary on Thucydides I.

By Amanda
Great seller and great price. Pristine condition, as described.

The second book of Thucydides is of particular interest because it contains important sections on the funeral oration, the account of the plague at Athens and the obituary of Pericles. His exceptionally complex structure and techniques make Thucydides one of the most difficult as well as one of the most profound of ancient historians. Professor Rusten aims to assist students at all levels in learning to read Thucydides. The text, in Greek, is supported by a valuable introduction and commentary in English. In his commentary, Rusten scrutinizes the historical, literary, and philosophical aspects. The introduction surveys biographical interpretations of the text, suggests a new approach to fictive elements in the speeches, and sketches the main features of Thucydidean style.

"The volume contains an intelligent and readable introduction that treats Thucydides' life, historiographical tendencies, and stylistic idiosyncrasies; a text, printed with only a brief critical apparatus in the appendix; and a full commentary with helpful maps...The commentary is simply superb." Hunter Rr. Rawlings III, University of Iowa
Language Notes
Text: English, Greek
About the Author
Jeffrey S. Rusten is Professor of Classics at Cornell University.
