**Michael T. Strauss, James Garbaczewski : Tomart's Price Guide to Hot Wheels, Vol. 2: 1997 to 2008, 6th Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tomart's Price Guide to Hot Wheels, Vol. 2: 1997 to 2008, 6th Edition:

2 of 2 people found the following review helpful. ...could be better.By NursophWhen you see "Vol. 1" and "Vol. 2" in the titles of two separate books, you'd expect there's a large enough amount of information that couldn't all fit in one volume. This is certainly NOT the case. This book is the same size as my 1990's tomart's price guide. They could have EASILY combined Vol 1 and Vol 2 into ONE paperback book and not charged \$35 a piece for them. Outrageous.0 of 0 people found the following review helpful. Not Great IIBy David LaubIt is hard to use and take a lot of your time to locate and price items.If you just want to locate the car it can take you a few minutes if you even find it???1 of 1

Volume Two updates Hot Wheels values and adds information for first edition castings introduced from 1997-2008. It supersedes values and other information published in previous editions, and is the most complete photographic collector s guidebook authorized by Mattel. This book also includes RRRumblers, Sizzlers, Crack-Ups, Flip-Outs, ChopCycles, Color Racers, Farbs, Hot Line Train, Zowies, and more.This book is an identification and value guide to Hot Wheels cars and accessories...a new toy idea when it was introduced in 1968, and remains the leading die-cast vehicle collectible over 40 years later. The Sixth Edition has outgrown a single book and is published in two volumes.
