Essential reference book for collectors By WarrenS For over 40 years, Joel Whitburn has authored a complete library of reference books for music collectors. Each publication explores a segment of the music business as reported in "Billboard Magazine". This book covers the hit singles on the "Rhythm

and Blues" charts from 1942 to 1988. Newer editions continue into later years. For each artist, the book lists a song's debut date, peak position, weeks on the chart, song title, label and record number. For the more popular artists, there is a brief bio statement. In addition, there is a essay on the history of "Black" music, a list of the top selling 200 artists, the top 20 artists by decade, top 40 #1 hits by decade, lists of the longest charting records and a list of the #1 hits chronologically. The book is divided into two sections allowing you to look up information by artist or by song title. If your interest is mainly in the early days of RB, the "Motown" era and the 70's, then this edition will be a perfect addition to your reference library. The choice between hard or soft cover should be made by how much service the book will see. For casual users, the soft cover edition is just fine. Thank you Joel, for these essential books.0 of 0 people found the following review helpful. What a great surprise find for the Executive Producer of Sock Hop ...By LarzarinoWhat a great surprise find for the Executive Producer of Sock Hop Saturday Night (WLNG 92.1FM). Almost perfect condition. Excellent suppliment to Joel Whitburn's other Billboard collections. This book formerly belonged to KTHX (The "X") in Reno, NV.0 of 0 people found the following review helpful. It is never easy to find the more comprehensive Joel Whitburn books and ...By John T.
