GTR Mapping : Topographic Recreational Map of Colorado before purchasing it in order to gage whether or not it would be worth my time, and all praised Topographic Recreational Map of Colorado:

1 of 1 people found the following review helpful. The Best Maps!By Joe SixpackGTR mapping makes the best maps, bar none, for general recreational use. Love 'em.EXCELLENT customer service too, if you have any need to contact them.0 of 0 people found the following review helpful. Good for the highways, but not the back roadsBy DennisThis map doesn't have nearly the detail i was hoping for. If you are looking for something that has small dirt county roads this is not it. I suppose I should have known given the fact that it shows the entire state.0 of 0 people found the following review helpful. Five StarsBy Carbon12I really like these maps. This one is a replacement for older/well worn one.

Topographic full color Colorado state map is scaled at 1" = 12.5 miles. Elevation contours each 1,000 feet (color shaded each 2,000 feet at higher elevations) portray the general geography. Also shown are national forests, wilderness areas, campgrounds, parks, state game and fish areas, ski areas, mining districts, points of interest, and more. More roads are shown than on typical highway maps. Much printed information is also included.
