Helene Siegel, Karen Gillingham : Totally Pancakes and Waffles Cookbook (Totally Cookbooks) before purchasing it in order to gage whether or not it would be worth my time, and all praised Totally Pancakes and Waffles Cookbook (Totally Cookbooks):

It caught the attention of my 7 year old grand daughter who has now developed an interest in cooking. Pancakes and waffles are the best place to start and the recipes are simple and flavorful. 3 of 4 people found the following review helpful. A little small and concise for its name and price. By USSMARSHALI was looking for a book with a much larger presence than what arrived in the mail from .com It's smaller than the size of a child's Golden Book perhaps twice as thick. I thought a few of the recipes were good, but not enough to put in a book to call "Totally Pancakes and Waffles." I'm a cookbook collector and you can find usually more recipes in a standard "family cooking" type cookbook than I found in this one. If someone gave me it for a gift I'd be grateful, but would by no means pay full price for it had I saw it in-person (or in-book). That's the only humor. The book at best was quaint or cute, but not what you'd call a serious cookbook. It would appear to me that this book was put together for the sole purpose to make money. I appreciate authors that actually put work into a book, this I could have done in a few days, couple of weeks

at the most. Additionally, if it is "Totally Pancakes and Waffles" why is the last chapter dedicated to various toppings? The editors (not cooks or chefs that I can tell) who put this book together should put those recipes in a "Totally Toppings" cookbook. OK a little more humor. While I won't throw it away or get rid of it, being a collector, I won't use it often. I'm a collector that normally uses the things I buy. If I had seen any real effort in its production I may have given it 3-Stars, but without that I can only rate it 2. It is disheartening at times to buy cookbooks put together strictly to try to make a buck or by food editors that should not be publishing books. Also be cautious of other cookbooks that say "The Complete" or "The Bible of." I usually find these the least complete or the main source I would use on their particular topic. Take a look at the "Bible of BBQ" and you'll know what I mean. Feel free to comment on my remarks or rating. I have a lot of years cooking, baking, and collecting cookbooks and a military career. Good reading and GB.3 of 3 people found the following review helpful. Great recipes, really unappealing book By Amy McFarland This book is very small and has no pictures, so it loses points for me in that regard. I love to see at least a few pictures of what I'm going to be making when I'm flipping through a cookbook. Since it's so small, it's also very difficult to have the book open when cooking (it wants to immediately fold back closed). That being said, it does have some nice, tasty recipes.

Pancakes and waffles are a breakfast staple, but after a while they can fall a little flat. From Cappuccino Cakes to Cottage Cheese Cuties, this versatile little pocket-size cookbook contains dozens of options for these comfort food classics that the whole family will love!

About the Author Los Angeles food writer Helene Siegel has written more than 40 cookbooks for a variety of tastes, including the Food Network's Too Hot Tamales, Pure Chocolate, and the bestselling Totally Cookbook series. Karen Gillingham is the author of Totally Garlic Cookbook, Totally Eggplant Cookbook, Totally Crab Cookbook, Totally Pizza Cookbook, Totally Corn Cookbook, and many other books.
