Good except CDsBy StephanieBThis a great ESL resource but I am totally confused on why the audio CD does not match up with all the activities listed in each unit. It's very confusing!!! The teacher's book indicates you should have two audio CDs, but I only got a CD and DVD. Leads to a hell of a lot of confusion and frustration on the teacher's part! Needs to be more synchronization between the audio CD and the exercises. Luckily, I am able to supplement where the CD falls short. But, for the average teacher this would cause real headaches!!!!0 of 0 people found the following review helpful. IncompleteBy Blue OrchidI agree with Stepan; it's confusing to use. I bought Touchstone 1 and Touchstone 2 in 2009. Each book came with 1 Self-study Audio CD/CD ROM and 1 Video on DVD. There is no Class Audio for either of the books. Should the authors of these books or the publisher do something to fix this problem? If we can't get the Class Audio, can we at least get the scripts?0 of 0
