But it didn't look like the advice would be very good for most scenarios.... and it sure wasn't appropriate for me! Badda boom, badda bang, and the

thing was over. The judge sure wasn't willing to hear any of MY arguments. The radar gun was calibrated, thus it was accurate.... case closed! Oh well...0 of 0 people found the following review helpful. Old news, these things no longer apply todayBy StevenWhile this may have been some good information in it's day, this book is old news. Excellent primer for your day in court...By A CustomerDue to the material in this book, for the first time, I had the courage to try to defend myself in court... This book makes the court experience much less traumatic... Armed with this book and what I learned the first time in court, I will not hesitate to go again if necessary...
