From Brand: Springer Publishing Company : Transitioning into Hospital Based Practice: A Guide for Nurse Practitioners and Administrators before purchasing it in order to gage whether or not it would be worth my time, and all praised Transitioning into Hospital Based Practice: A Guide for Nurse Practitioners and Administrators:

This is a unique and needed addition to the nursing literature. Historically, the role of the nurse practitioner was

focused on primary care, but as the healthcare environment has changed, so has the need for nurse practitioners in the hospital setting....This valuable resource is a wonderful guide for nurse practitioners and administrators working to successfully create this transition in their organizations." Score: 98, 5 Stars.--Doody's Medical Reviews

Transitioning into Hospital Based Practice: A Guide for Nurse Practitioners Administrators is the first text to address the mutual issues of both NPs and administrators in successfully implementing NP practice in hospitals. This book addresses the planning, implementation, and evaluation process as well as the key factors that are critical to the success of the individual NP, and incorporates practical guidance from national NP experts. The NP recruitment, orientation, mentoring, and professional development are key to the individual and collective success of both the NP and the organization's outcomes. It is the commitment to this mutual success that sets this book apart from any other texts on this subject and makes it indispensable for students, practicing NPs, and administrators alike.

Key Features: Provides concrete strategies for the NP and Administrator that support the transition from clinic to hospital-based APN practice
Addresses a growing need for role identification and integration of the NP role into the hospital setting
Covers the planning, implementation, and evaluation process of the hospital-based NP
Focuses on the improvement of patient outcomes and cost reduction
Written by national NP experts

From the Back Cover""Transitioning into Hospital Based Practice: A Guide for Nurse Practitioners Administrators "is the first text to address the mutual issues of both NPs and administrators in successfully implementing NP practice in hospitals. This book addresses the planning, implementation, and evaluation process as well as the key factors that are critical to the success of the individual NP, and incorporates practical guidance from national NP experts. The NP recruitment, orientation, mentoring, and professional development are key to the individual and collective success of both the NP and the organization's outcomes. About the AuthorAt the time of this project's inception, Mona N. Bahouth, MD, MSN was the Project Manager for Advanced Practice Nursing at the University of Maryland Medical Centre, Baltimore where she provided leadership for 100 NPs for the promotion of professional growth and systems for integration of NPs into hospital practice. From 1998 - 2006, she was Director for Clinical Programs and Research in the Department of Neurology at the Maryland Brain Attack Centre. Dr. Bahouth has extensive experience in developing programs for NPs dating back to 1999 when she developed the first hospital wide NP group at the University of Maryland. She has published and lectured extensively on multiple topics including the process of NP transition into hospital based practice. These experiences were the impetus for the development of this text.

Kay Blum, PhD, CRNP is a Heart Failure NP and Coordinator for the Cardiac Risk Reduction Centre at Southern Maryland Hospital Centre in Clinton, MD. She was one of the first few NPs at the University of Maryland Medical System. She has been a researcher, CNS, clinician, continuing educator and consultant. Dr Blum has held faculty appointments at the University of Maryland, the University of Texas Medical Branch at Galveston, the MGH Institute of Health Professions and Clemson University. She is actively involved in NP, quality, research and advocacy issues in the American College of Cardiology.

Shari Simone, DNP, RN, CPNP-AC, APRN-BC, FCCM is the lead NP for Women's Children's services at the University of Maryland Medical Centre. She has practised as a paediatric critical care NP for 15 years and was instrumental in developing the NP role in the paediatric ICU at the University of Maryland. She also holds a faculty appointment at the University of Maryland School of Nursing in the Paediatric Acute Care Nurse Practitioner Program. Dr Simone has published and lectured extensively on multiple paediatric topics as well as the role of the NP in paediatric critical care and the NP orientation process.
