Graham Robson : Triumph TR's: A Collector's Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Triumph TR's: A Collector's Guide:

0 of 0 people found the following review helpful. Details of the Marque from an ExpertBy Floyd M. OrrAs with the other books in the Collector's Guide Series, this is a comprehensively detailed history of the subject matter. The release of this book predated the TR7 Convertible and the TR8, but the history of the development and production of the TR2 through the TR7 Coupe is very complete. The author was an employee of the company during the seminal development of these models and his inside perspective shines through! This book will tell you most everything you want to know about these classic models.
