Good book, helps to learn Russian. By Quinn hejlik The book itself is good for learning Russian, especially when in conjunction with a college language class. It gives good examples and clearly explains grammatical rules, vocabulary, how to speak and ask questions, and a lot of examples. 0 of 0 people found the following review helpful. Five Stars By Biryukova Good condition of the book

This communicative "natural approach" to introductory Russian emphasizes reading, writing, speaking, and listening skills. Everyday topics are presented to allow readers to begin communicating immediately. Grammar is presented as a necessary tool for communication and is introduced throughout. The book aims at comparing and contrasting cultures, rather than presenting the target culture only.
