**Homer L Davidson : Troubleshooting Consumer Electronic Audio Circuits** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Troubleshooting Consumer Electronic Audio Circuits:

Everything from the basic amplifier of the small phono player to the high-powered auto receiver-amplifier is covered in this book. This book can provide critical electronic information for the homeowner, hobbyist, electronic student, and technician. Homer Davidson is the owner of Davidson Radio TV in Iowa and has over 40 years of experience in repairing consumer electronics products.
