Dave Thompson, Phil Collins, Genesis, Peter Gabriel : Turn It On Again: Peter Gabriel, Phil Collins, and Genesis before purchasing it in order to gauge whether or not it would be worth my time, and all praised Turn It On Again: Peter Gabriel, Phil Collins, and Genesis:

0 of 0 people found the following review helpful. Great Kindle read. By JBRI have been a Genesis fan most of my life. As a teen of the '80s, I was a fan of Phil and their more pop tunes...although I was drawn to the music's deeper meaning. When I entered college I discovered Peter Gabriel and was hit like a Sledgehammer with their older stuff. WOW To say I was hooked is an understatement. I still listen to Foxtrot, Lamb, and just bought PG'S New Blood. But this isn't about me, it's about Genesis. One of the things I liked most was how Mr. Thompson gives due credit to Phil Collins when he steps into the role of lead singer. If one listens closely to those old CD's, one can clearly hear Phil singing with Peter. After Gabriel left Genesis, I think it was good of him to note that they collaborated quite a bit. Don't

get me wrong, no one could truly replace Gabriel's deep emotive voice; but I don't think anyone could have done it better than Phil Collins. I didn't know Phil was drumming on Eno's "Taking Tiger Mountain." My point is that there is a lot of neat snippets of info. crammed in this little gem of a book! JBRO of 0 people found the following review helpful. Five Stars By S. Anderson Perfect gift! 0 of 0 people found the following review helpful. Five Stars By Lousydirectionscausetechphobia Awesome!

(Book). One of the most successful rock acts of all time, Genesis enjoyed a longevity exceeded only by the likes of the Rolling Stones and the Kinks, and provided a launching pad for superstars Peter Gabriel and Phil Collins. *Turn It On Again* is the first book to document the complete history of this popular and influential band, bringing their story up-to-date while placing them in the context of their time. It explores the relationship between the band and the remarkable solo careers it spawned. Drawing on dozens of exclusive interviews with band members past and present, as well as the musicians' friends and associates, author Dave Thompson chronicles Genesis' evolution from progressive-rock visionaries to mainstream rock stars, and the continuing careers of its most famous alumni.

About the Author Dave Thompson is the British born author of over 100 books, largely dealing with rock and pop music (The Fall, Ozzy Osbourne, Rod Stewart, The Sparks and many more), but also covering film, sports, philately, numismatics and erotica. He lives in Newark, Delaware and is married to writer Amy Hanson.
