National Oceanic and Atmospheric Administration, National Imagery and Mapping Agency : U.S. Chart No. 1: Symbols, Abbreviations and Terms used on Paper and Electronic Navigational Charts, 12th edition before purchasing it in order to gauge whether or not it would be worth my time, and all praised U.S. Chart No. 1: Symbols, Abbreviations and Terms used on Paper and Electronic Navigational Charts, 12th edition:

3 of 3 people found the following review helpful. Well Done!!By Nancy M Hahn This Chart No 1 has all the new symbols on it as well as the ones we are used to reading. They did a great job. The pages are laminated, the colors are accurate. Electronic Nav. charts are included so you can see what symbols are on your instruments. A lot of material for study in this book.2 of 2 people found the following review helpful. Legend-aryBy John What's not to love about a book filled with little symbols and their meanings? This is the official legend for all the nautical charts published in the US, both paper and electronic. For those of us who read these, this greatly enhances understanding and usefulness. Should be on every sailor's bookshelf or boat.0 of 0 people found the following review helpful. More than just a chart - More than you expect!By Castrilper This is an outstanding reference that every sailor should have. Full color, comprehensive, and packed with information, this high quality book is a must read for users of charts, both electronic and paper.

This edition of U.S. Chart No. 1 has a new name and a new look. Its title is now Symbols, Abbreviations and Terms used on Paper and Electronic Navigational Charts. For the first time, U.S. Chart No. 1 presents both of the major symbology sets used for marine navigation. As in previous editions, the symbols used on paper nautical charts produced by NOAA and the NGA and digital raster representations of those charts, such as NOAA Raster Nautical

Chart (NOAA RNC's), are presented in lettered sections organized in categories, such as Landmarks, Depths, and Lights. New in this edition is the inclusion of the corresponding symbols used to portray Electronic Navigational Chart (ENC) data on Electronic Chart Display and Information Systems (ECDIS) as specified by the International Hydrographic Organization (IHO).
