Nicely Packed and IllustrativeBy scar EsquivelI purchased 3 different dental charts, 1 didn't arrive, the other came poorly wrapped to the point that the edges were broken and this one arrived perfectly and neatly rolled in a plastic wrap.0 of 1 people found the following review helpful. The Understanding the Teeth chart portrays both dental structure and dental problems. The chart also presents views of both adult and child dentition, visually keyed to show the dates and sequence of eruption. Heavy cover stock with protective varnish for durability.
