National Geographic Maps - Reference : United States Classic [Tubed] (National Geographic Reference Map)
before purchasing it in order to gauge whether or not it would be worth my time, and all praised United States Classic [Tubed] (National Geographic Reference Map):

1 of 1 people found the following review helpful. Great map! By Julia Looks really cool and beautiful! Accurate and looks nice! I'll be returning it but only because it's a little too big. I'll definitely order the smaller version! 9 of 9 people found the following review helpful. great US map By Paula AI used it to display state shaped photos of the places we have visited, thanks Pinterest for the wonderful idea 6 of 7 people found the following review helpful. Smaller than I expected based on reviews; don't co-order with heavy items. By JJI had to dig into the product description (this information is not visible unless you click a link) to find out that the actual size is 43.5" x 30.5". Not 4 feet by 6 feet as others have claimed! Also, the map is not laminated, don't write on it! The tube was slightly crushed due to my decision to order this along with a heavy item, which was shipped in the same box. So the map is slightly crumpled in one area. I've seen a much nicer and larger NatGeo map with a wooden frame around it, and it's available on , but it is out of my price range. I've gotten a larger (and laminated) US map from a different publisher that I like better, and it's only slightly more expensive.

Our most popular United States wall map. Features all 50 States with insets for Alaska and Hawaii. All major cities, transportation routes, State boundaries, National Parks, inland waterways, and mountain ranges are clearly displayed and labeled. Available in several size, printing, and lamination configurations. Map is printed on premium quality paper stock, rolled, and packaged in a clear, hard plastic tube. Map Scale = 1:4,560,000 Sheet Size = 43.5" x 30.5"

About the Author Founded in 1915 as the Cartographic Group, the first division of the National Geographic Society, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps,

recreation maps, atlases, and globes which inspire people to care about and explore their world. All proceeds from the sale of National Geographic maps go to support the Society's non-profit mission to increase global understanding and promote conservation of our planet through exploration, research, and education.
