0 of 0 people found the following review helpful. Outdated AmatuerishBy BobrunoDo not waste your money. This is way over priced for what it is. It is long, LONG outdated. It is also not physically a quality publication. It looks very amatuerish. There is no redeeming quality. It is VERY overpriced. I don't how Lee still sells this with a clear conscience.0 of 0 people found the following review helpful. Okay but not greatBy R. HeffernanDid not have many companies with websites. A lot of the wholesale companies you had to call or write for a catalog. I would say about 60-70% of the wholesale companies where dollar items. This book didn't help me.0 of 0 people found the following review helpful.
