**David F. Noble : Using Wordperfect in Your Job Search/Windows, DOS Versions 5.0-6.1** before purchasing it in order to gage whether or not it would be worth my time, and all praised Using Wordperfect in Your Job Search/Windows, DOS Versions 5.0-6.1:

This covers all PC versions of WordPerfect through 6. 1 for both DOS and Windows, assuring the current owners a wide variety of tips. It's refreshing to see a computer title geared not so much to the program as to its use: this tells how to use the program in conjunction with networking procedures, job search schedule creation and tracking, and formatting and design for resumes and calendars. -- Midwest Book
