I was amazed at how literally by-the-book consulting interviews are. Everything you'll need to know will be in here. It should be noted, however, that the kindle version is not all that well produced. The formatting is very bad and sometimes changes around when you close out and come

back to it later.0 of 0 people found the following review helpful. Great Value, shipping not so fast but it is ...By CustomerGreat Value,shipping not so fast but it is fair.anyway a good purchase experience0 of 0 people found the following review helpful. DecentBy CustomerInformation on the industry and the life was solid. Authors' matter-of-fact attitude and thinly-veiled disdain for boutique firms was obnoxious.

This is one of Vault's best-selling titles. This new Guide covers the basics of the consulting industry, including walk-throughs of growing and hiring firms, perks, firm-paid graduate degrees, insider interview tips and real consulting case questions.
