**National Geographic Maps : Venice (National Geographic Destination City Map)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Venice (National Geographic Destination City Map):

0 of 0 people found the following review helpful. not plastic laminated but not just paper eitherBy Jane DoeI assume it's accurate (but haven't verified). I purchased to pre-plan destinations for an upcoming trip (which I do before determining which part of town to rent lodgings in). Includes (what I believe to be) the entire city (group of islands), not just a cut out of the "downtown" type area.Description said "waterproof" or "water resistant" which I though meant "laminated in plastic" but it's not; rather, it's a funny type of paper which probably is water resistant. So, I'd say it's LESS than plastic laminated waterproof but WAY MORE than the cheap paper maps we used to use long before smart cell phones.2 of 2 people found the following review helpful. Good qualityBy Carl E. Bullers Sr.Just what I needed and at a great price2 of 2 people found the following review helpful. Five StarsBy JAT, Portland, ORGood map. I will defiantly use this in Venice. Love that it is water proof!
