Hal Leonard Corp. : VH1 100 Greatest Songs of the 80's (Vh1 Selections from 100 Greatest Songs of the 80s) before purchasing it in order to gage whether or not it would be worth my time, and all praised VH1 100 Greatest Songs of the 80's (Vh1 Selections from 100 Greatest Songs of the 80s):

8 of 8 people found the following review helpful. I love this book!By Lisa TaylorIf you are searching for a music book for piano or a synthesizer, then this is the book to buy if you like 80's music and you are tired of buying music books that you play one time and it sits in the music bench forever. The songs are arranged well and are easy to play. They sound like the originals. I read a review and thought it will be like every other book, sits in the bench....but to my surprise it was great. I have purchased so many books and they are not good. I am tired of buying books that do not

come close to sound like the original song. This book does not contain 100 songs...does not have Billie Jean.....Beat It..Hungry like the Wolf..Too Shy..Born in the USA..Round and Round..Rock me Amadeus.I use this book every day on both my piano and my synthesizer and it sounds great. To my surprise, "I Ran" , "Call Me", and "Sweet Child O' Mine" "White Wedding" and "Our Lips are Sealed" are really fun to play. I really enjoy this book.1 of 1 people found the following review helpful. Nothing to rave aboutBy pianoguy87The book looked good on the outside, but the inside was hideous. Some of the songs in this book should have never been transcribed for piano music. Example, why have Public Enemy's "Fight the Power" on here, there is only a couple notes to play on the piano with the rest just lyrics, do the publishers expect me to have Flavor Flav sitting next to me while I play the piano so it sounds good?. There are a few other rap songs on here that don't make much sense to play on the piano. What surprised me the most was on the back of the book it says that songs with a star next to them have been cut out of the book do to copyright issues, and those songs they cut out were some really good ones I would of liked to play on the piano. There are really only I would say 10 songs on here that are good to play on the piano, the rest I think are boring and worthless to play.0 of 0 people found the following review helpful. Amazing! And overwhelmingBy Veronica SmithI got this book pretty quickly, and I bought it used, but it looks completely new. So im happy with it. I've been playing the piano/keyboard for several months with lessons, so I can't really understand it yet, but when I play the vocal melody parts it sounds spot on. I'm a huge 80s music fan and I hope to make an 80s throw back band sometime. This book will be so helpful, it has all the best songs! There's so much to learn!

About the AuthorFounded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.
