I'm trying to learn to finger pick a few songs that we both know to keep us interested as just learning the chords is proving hard to keep these two beginners very motivated. There are a few songs with the tabs, but many are way over my head with different guitar tuning and capo placement. I

think this is geared towards someone who is more advanced than we are. 1 of 1 people found the following review helpful. Looks like a great guitar tab book but in the Kindle ...By Real A Robillard Looks like a great guitar tab book but in the Kindle format you can not see the chords! Print too small. Kindle option is to amplify the font, which all that happens it to change the size of the title. The actual music remains so small you need a magnifying glass to read it. I have the Kindle App on my Surface Pro 2 but can not affect an increase in the magnification. 0 of 0 people found the following review helpful. Love the selection By Customer Nice book! I am Playing American Pie now...thanks. The book is more geared to us older folk I think,.
