The Vietnam War produced a quarter century of violence in faraway swamps and home-front streets, and it still haunts America's view of the world. Take a look back at every aspect of that turbulent era in a visual encyclopedia of over 500 extraordinary photos and alphabetized entries. The breadth of content and size of this massive illustrated volume will stun you with its completeness. The bloodiest battles and the most complex campaigns, the deadliest weapons of air, land, and sea, the heroes and villains, the military leaders and political powers from both sides, receive an A-to-Z treatment from all the experts and all world's best photographers. You'll once again see the angry protesters and patriotic commentators who fueled passions on both sides. Coverage starts in 1950 with post-World War II upheavals, and ends in 1975 with Hanoi's final takeover. Special feature: a blow-by-blow chronology chart of all major military and political events. Photos range from documenting of personnel, tanks, planes, and ships displaying their special insignias to graphic, award-winning scenes of horrific agonies suffered by combatants and innocents alike.
