From Routledge : Vietnam War Slang: A Dictionary on Historical Principles by Dalzell, Tom (2014) Paperback
before purchasing it in order to gauge whether or not it would be worth my time, and all praised Vietnam War Slang: A Dictionary on Historical Principles by Dalzell, Tom (2014) Paperback:

1 of 1 people found the following review helpful. Yet this is a good primer from which to enter Tom Dalzell's world. By
gr8fulI was in Viet Nam in 66-67, and I can't imagine this book being of much use to those who were in country, or in
any of the services, wherever they served at that time. I can think of terms, phrases, jargon, etc. far more particular,
more widely used and more relevant to troops and civilians embroiled in that experience, some of which were
printable. Yet this is a good primer from which to enter Tom Dalzell's world, populated with the argot of people
forgotten, isolated and oppressed. If you are as fascinated as I am with words, their history and their context, you will
enjoy Dalzell's skilled, entertaining writings, and you will be infected with his passion for the work he does. So read
this book, but also read some of his other books, and your own world will be the better for it.
