Book by Savage, Kathleen M.

From Library JournalComplementing the U.S. Bureau of Labor Statistics' Occupational Outlook Hand book , 1990-91 ed. (GPO, 1990), this new companion to Professional Careers Sourcebook (LJ 4/1/90) treats the 135 nonprofessional vocations covered in the Handbook . Career profiles supply brief job descriptions and augment greatly the lists of information sources in the Handbook. Included are career guides, associations, certification agencies, training programs, manuals, test guides, awards, journals, and meetings. This unique title will be very useful in public and high school libraries, but Gale had better rush the next issue because the 1992-1993 Handbook is already in print.- Leonard Grundt, Nassau Community Coll.
