From Brand: University of Oklahoma Press : Voices from the Oil Fields before purchasing it in order to gage whether or not it would be worth my time, and all praised Voices from the Oil Fields:

A collection of short stories about oil field life. In the late 1930's employees of the Federal Writers Project, a branch of the New Deal Works Progress Administration, recorded the voices of the early-day workers of the "oil patch", recalling the grueling toil, primitive living and working conditions, and ever-present danger in a time when life was cheap and oil was gold.
