**Merriam-Webster : Webster's American English Dictionary, Expanded Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Webster's American English Dictionary, Expanded Edition:

Manes I bought this for my 5th grade daughter to use as reference when she is reading and doesn't know the definition of a word. Out of the 12 words she looked up - she only found the definition for 1. You get what you pay for here, this just isn't complete. 6 of 6 people found the following review helpful. A good resource, even in these Wiki times.... By Rory Alarcon I bought this item for my child to assist with spelling homework and general writing exercises from school. I was surprised to learn that she had not been taught how to use one before, but I make her use it several times during her homework sessions. It beats having to spell everything out and is also useful for teaching her how alphabetical filing works. Even today, this skill is important, though sometimes overlooked due to the ease of Google, Wikis, etc. Well worth the minimal price. 7 of 8 people found the following review helpful.
