Not Available : Webster's Encyclopedic Unabridged Dictionary: Of the English Language before purchasing it in order to gage whether or not it would be worth my time, and all praised Webster's Encyclopedic Unabridged Dictionary: Of the English Language:

3 of 3 people found the following review helpful. Found a hardback gemBy J. RobertsonI know there are dictionaries available online and for download, but I'm a dinosaur when it comes to books. (I like the heft of them in my hand, the texture and scent of the pages, being able to make marginal notations.) The volume arrived on time and is in excellent shape. It will get a lot of use. I'm so glad makes provision for the technologically impaired.1 of 1 people found the following review helpful. Great Dictionary!By LauraThis is exactly what I wanted and shipping was quite fast. So happy with this purchase.4 of 4 people found the following review helpful. Webster's Encyclopedic Dictionary

"English Language" By LHI was told back in the mid 70's if I can get my hands on this dictionary to do so by my teacher. I have during college and I will now purchase this book for my nephews and nieces. This book is full of information and will continue to teach a child or adult to complete some work to get your answers. We all live on computers today and this book is worth it.....

Over 2,000 pages of information make this the most comprehensive, accessible, and indispensable reference volume for teachers, students, business people, writers--anyone and everyone that loves words. Newly revised, completely up-to-date with new words and definitions that reflect modern political, geographic, and biographical changes, and with supplementary material offering a wide spectrum of supportive information, this is a whole reference library in one volume, offering quality, authority, and value.
