Elsa Marina Pittman : Webster's New World 575+ Spanish Verbs before purchasing it in order to gauge whether or not it would be worth my time, and all praised Webster's New World 575+ Spanish Verbs:

8 of 8 people found the following review helpful. Much more useful than "501 verbs" by Barron's. By eCognitionI used to have "501 verbs" by Barron's, but got tired of looking at the bad photocopy-like print. Not only that, the sentences given are too sparse, especially when you're working with a foreign language; all of which require both grammar and continuous repetition and decoding of sentence structure used in the language. This reference gives you that and it

does it in a much better form than "501 verbs". If the establishment that is foreign language instruction can bare to loosing their grip on "501 verbs" long enough to see that there are new players on the market, they'll find a very useful companion to their current curriculum in "Websters New World 575 Spanish Verbs". If you're looking for another highly useful reference with enormous amounts of sentences to digest, you may want to look into the "Oxford Spanish dictionary on cd-rom". This thing is a beast and incredibly useful with split-second dictionary searches, talking speech functions which give you the proper pronunciation for each word and allow you to copy and paste any written Spanish material you can find in word, the internet, etc. With the program opened, you can even double-click any word you find on the internet (not including hyper-linked words) which automatically retrieves the definition from the reference. For on the go, those without a computer or those wanting portable access to a mobile Spanish dictionary, I highly recommend Merriam-Webster's Speaking Spanish-English Dictionary. If you're constantly on the computer, the CD-Rom from Oxford will be incredibly helpful, along with this Webster reference for Spanish verb usage. Good luck in your quest to pick up a second language. It's hard work, but the payoff in money (on you resume?) and personal pride are well worth the effort you'll have to put it.0 of 0 people found the following review helpful. I have both "501 Spanish Verbs" and "601 Spanish Verbs" but this book has better descriptions of the tensesBy RogelioVery helpful. I have both "501 Spanish Verbs" and "601 Spanish Verbs" but this book has better descriptions of the tenses.2 of 2 people found the following review helpful. Good reference bookBy Birute SkurdenisFor anyone who gets confused about Spanish tenses and irregular verbs, this is a required resource. It's a big book, so meant for your library. Seeing all the tenses for a verb laid out in an easy to read table has improved my retention of verb endings.

Your one-stop reference for Spanish verbsMastering Spanish verbs is a tough job for students learning the language, but now it's easier than ever! Whether you're studying the language in school or translating a report for work, Webster's New World 575+ Spanish Verbs is the only verb reference you need.
