PRENTICE HALL : WEBSTER'S NEW WORLD CHILDREN'S DICTIONARY before purchasing it in order to gage whether or not it would be worth my time, and all praised WEBSTER'S NEW WORLD CHILDREN'S DICTIONARY:

1 of 1 people found the following review helpful. Don't buy, it's missing wordsBy PreciousI wish they had a 'no star option' because this thing should not be allowed to get one at all.This dictionary was simply missing words. It's not even complete enough for a kindergartener to use. I purchased two of these book because it was mandatory at my children's private school. This is the dictionary the principal required. However on every weekly list of words at least one of them was not in this children's dictionary. It was a complete waste of money and frustrating to use. I guess the new world won't be very literate according to Webster's New World Children's Dictionary.0 of 0 people found the following review helpful. Four StarsBy L. CurtisGreat first dictionary for my Kindergartner. Easy to use0 of 0 people

found the following review helpful. He likes it! That is all that matters. By George Scarlatta Excellent dictionary for 9 year old grandson from this adult's point of view. I did quite a bit of research before I chose this dictionary. I think it is the most comprehensive and therefore, the best of the lot for middle aged schoolers. It is what he wanted and appears to be happy with it.

With more than 33,000 entries selected in consultation with top educators and definitions written specifically for middle school children, this is the most up-to-date and child-friendly dictionary. Designed to make children enthusiastic instead of intimidated.
