From Ingram : Well Said: Pronunciation for Clear Communication before purchasing it in order to gage whether or not it would be worth my time, and all praised Well Said: Pronunciation for Clear Communication:

1 of 1 people found the following review helpful. if you are going to sell it at least try to do it in good conditions. Now it does not make any sense ...By CustomerI received this book and it was used by another person. Ok, I can understand that it is a used item. But considering that it is a book, if you are going to sell it at least try to do it in good conditions. Now it does not make any sense to try to do the exercises knowing the answers (because even if I erase the marks, some signs of the answers still remain). I want to return this item and have a refund.5 of 5 people found the following review helpful. Useful teacher resourceBy DonnaI am a master's student in Applied Linguistics and Teaching ESL. I had to buy this textbook for a course, but I plan to keep it because it has so many activities for teaching both segmentals and suprasegmentals. I have also used it in tutoring students. I would prefer for some of the communicative practice activities to be more engaging, though.0 of 0 people found the following review helpful. Five StarsBy

bradquality good love it.highly recommendation.easy to apply for your phone.

The Well Said series offers a lively communicative approach to building and improving pronunciation and speaking skills through strategies development and abundant confidence-building activities.

About the AuthorLinda has pursued her interest in first and second language pronunciation for over forty years. She has taught ESL students at Georgia Tech, international teaching assistants at Emory University, and graduate students in applied linguistics at Georgia State University in Atlanta. Her special interests are applying pronunciation research to practice and integrating pronunciation into the oral communication curriculum. She is the author of two pronunciation texts, *Well Said* and *Well Said Intro* (National Geographic Cengage) and the editor of the teacher resource volume *Pronunciation Myths* (University of Michigan Press).
